

## Environmental Policy

### Introduction

At Marble Building Products (Yorkshire) Ltd, we are committed to making a positive impact on the environment by reducing carbon emissions, conserving natural resources, and minimising waste generation. Our environmental policy outlines our dedication to sustainability and serves as a guiding framework for our operations and interactions with the community.

### Scope

This environmental policy applies both internally within our organisation and externally to our stakeholders, including customers, suppliers, and the public.

### Key Environmental Concerns

Our environmental policy focuses on addressing the following key environmental concerns:

- Sustainable extraction of natural minerals
- Responsible mining
- Energy consumption
- Water usage
- Waste management
- Environmental impact of vehicle usage

### Objectives and Targets

We have set the following objectives and targets to address these concerns:

- Ensure our supply chain conforms to relevant responsible mining and extraction laws
- Reduce energy consumption
- Increase our usage of renewable energy
- Implement green energy generation
- Further reduce our water consumption
- Decrease general waste generation
- Improve recycling rates
- Improve the efficiency of our vehicle use to reduce our carbon footprint
- Minimise our overall carbon footprint

### Strategies and Measures

To achieve these objectives, we will implement a range of strategies, including operational changes, investments in eco-friendly technologies, and adjustments to daily practices.

### Monitoring and Measurement

We will monitor our progress using Key Performance Indicators (KPIs) and collaborate with consultants and auditing bodies to ensure transparency and accuracy in our assessments.

**Timelines**

Our objectives will be pursued through a mix of short, medium, and long-term goals, with clear timelines for each.

**Resources and Support**

To support our employees and stakeholders in adhering to this policy, we will provide training and regular updates on its success.

**Engagement and Communication**

We will engage and communicate with our employees, suppliers, customers, and the public through various channels, including social media, email campaigns, and during site visits.

**Non-Compliance**

In the event of non-compliance with this policy, we will follow a corrective action plan, including clear communication, timelines for improvements, monitoring, and an escalation process where necessary.

**Continual Improvement**

We will review and update this policy at yearly intervals to ensure its effectiveness. Any areas for improvement highlighted during the review will be addressed through corrective action plans.

**Accountability and Transparency**

We will ensure transparency and accountability through clear communication, objective setting, and goal-defining.

**Conclusion**

At Marble Building Products (Yorkshire) Ltd, we are dedicated to protecting our environment for future generations. This policy represents our commitment to reducing our environmental impact and continually striving for a more sustainable future.
